PREDGOVOR PRIREĐIVAČA

Pred vama je kapitalno djelo Šerin Novotni Andrijašević (Sharyn Novotny Andrich) koja je uspjela sakupiti i sistematizovati do sada neobjavljivanu zvaničnu dokumentaciju o migracijama Crnogoraca i Crnogorki u Sjedinjene Američke Države s kraja XIX i početka XX vijeka.

Slobodno možemo reći da takav materijal nemaju ni zemlje s mnogo dužom institucionalnom tradicijom u oblasti istraživanja migracija ka Novom svijetu, u ovom slučaju SAD-u. Ovaj rad je nesumnjivo, u geneološkom smislu, osnov za svaki dalji i detaljniji istraživački poduhvat, a naročito, u perspektivi, za arheološki popis sadašnjih potomaka u ovom radu popisanih crnogorskih iseljenika u SAD-u.

Na osnovu mog iskustva, ali i iskustva drugih koji se decenijama bave ovim naučnim poljem širom svijeta, taj će popis zasigurno premašiti dosadašnje, uglavnom okvirne procjene i pomoći u stvaranju kvalitetne baze podataka. Takođe, dugoročno gledano, to će omogućiti jače uvezivanje ovog dijela starog iseljeničtva sa zemljom odakle su došli njihovi preci, Crnom Gorom, i uopšte snaženje naših odnosa kako sa gradovima, regijama i saveznim državama tako i SAD-om u cjelini. Ovaj rad predstavlja veoma važan doprinos odnosima SAD i Crne Gore u skladu s njihovom najboljom tradicijom.

Dugogodišnji rad gospođe Novotni omogućava nam upoznavanje sa segmentom istorije koji Crna Gora i Amerika dijele. Navedenom svjedoči veliki broj podataka o crnogorskim emigranata koji su istovremeno učestvovali u izgradnji i industrijalizaciji SAD-a i pomagali svoje porodice i Crnu Goru. U tom smislu, zaista je velik doprinos proučavanju zajedničke istorije i utvrđivanju veza između naše dvije zemlje.

Još uvijek se jako malo zna o našem starom iseljeničtvu u SAD-u i uopšte Sjevernoj Americi, a naročito o njihovom kolektivnom ili pojedinačnom doprinosu koji je bio nesrazmjerno veliki, u odnosu na ono što Crna Gora jeste

bila i ostala brojem stanovnika i teritorijom u poređenju s ostalim zemljama odakle su u SAD, u isto vrijeme, pristizale hiljade emigranata.

Rad gospođe Novotni značajan je iz mnogo drugih razloga, te pomoću nje mogu se dobiti dokazi o ulascima u SAD, mjestu prebivališta, državljanstvu, i uopšte osnovni podaci o crnogorskim državljanima koji su tada na legalan način emigrirali u SAD. Analizom prikazanih podataka moguće je saznati iz kojeg dijela Crne Gore se najveći broj naših ljudi iseljavao u SAD, u kojim su se djelovima SAD-a najviše naseljavali, prosjek godina iseljenika, polna struktura, kao i zanimanja kojim su se bavili prilikom dolaska u SAD. Moguće je, takođe, pratiti i podatke o putevima, načinu transporta, evropskim lukama odakle su kretali, zemljama gdje su bila sjedišta kompanija koje su prevozile iseljenike, kao i veoma interesantne podatke o reemigraciji koja se, kao što se može primjetiti prilikom listanja, najčešće kretala sa prostora Južne Amerike, Kanade i Meksika, s tim što je reemigracija iz Južne Amerike uglavnom bila brodovima, dok se iz Meksika i Kanade odvijala kopnenim putem.

Ono što je de fakto bio najveći problem prilikom prenošenja i prevođenja podataka jeste transkripcija imena i prezimena, te dopuna nedostajućih podataka i ispravke. Optimizacija podataka za publiku u Crnoj Gori predstavljala je ogroman izazov, prije svega za autorku, a potom i sve ostale koji su radili na knjizi i omogućili da u ovom obliku izađe u javnost, uz sve moguće greške koje je, usljed velikih alteracija imena i prezimena pa i čestih nedostataka, bilo nemoguće potpuno ukloniti ili dovesti u optimalnu formu.

Naime, naši iseljenici prilikom ulaska u zemlju i naseljavanja u SAD najčešće nijesu dobro poznavali engleski jezik (prvi iseljenički rječnik štampan je u Čikagu, septembra 1915. godine, u štampariji Dušana B. Popovića), tako da su njihova imena, prezimena i mjesta rođenja često zapisivani po zvučnosti i interpretaciji službenika koji su govorili uglavnom samo engleski jezik. Kasnije tako upisana imena prenosila su se u zvanična dokumenta prilikom naturalizacije.

Ono što je bilo zajedničko kod svih emigranata iz zemalja koje ne pripadaju engleskom govornom području jeste da su imena često zapisivana po njihovoj fonetskoj vrijednosti na engleskom jeziku, ili su to u manjem broju slučajeva bili prevodi imena kao „Petar“ u „Pete“. Ipak, u najvećem broju slučajeva imena su prepisivana u originalu, gdje je opet zapažen veliki broj grešaka.

Poređenja radi, kod emigranata u Meksiku imena su uglavnom prevedena npr: „Petar“ u „Pedro“ ili pak transkribovana, npr. Vukosava u Vucosaba. U SAD-u, međutim, mnogo je češća bila potpuna promjena imena i prezimena, ne samo kod naših emigranata već kod svih.

Uzeću za primjer poznatog zubara iz Oregona Džefa Marksa (Jeff Marx) porijeklom Crnogorca iz porodice Mijušković, koji je više puta boravio u Crnoj Gori i pronašao svoju najbližu rodbinu. Zatim imamo primjere iz susjedstva, kao što je glumac nijemih filmova Džon Miljan čije je rođeno ime Jovan Miljanović, pa Karl Malden rođen kao Mladen Sekulović porijeklom iz Bileće, a zašto da ne pomenemo i đeda autorke ovog rada koje se prezivao Andrijašević, što je u SAD-u skraćeno na Andrich, ili na našem jeziku Andrić. Tu je i poznati lobista sa Aljaske, pokrijeklom iz okoline Kolašina, Aleks Miler (Alex Miller) čije je prezime bilo Milajić, zatim Džon Malković (John Malkovich) čije prezime potiče iz ovog regiona, a po njegovom kazivanju možda i iz Crne Gore, ali za koje je teško utvrditi kakvo je u originalu, kao i za većinu navedenih prezimena koja su izmijenjena.

U velikom broju slučajeva alteracija prezimena prosto ne ostavlja tragove prvobitnog oblika. Sjećam se intervjua koji sam radio s Donom Bolićem (Don Bolich) 1999. godine u vezi male crnogorske kolonije u Vajomingu. Don Bolić rođen je u SAD-u u porodici emigranata iz Crne Gore prezimena Bjelica.

Primjeri zapisivanja naših imena i prezimena u bazama podataka na engleskom

U imenima i prezimenima, slovo **c** često zamjenjuje slova **ć**, **č** i **k**.

Slovo **j** zamijenjeno je ponekad slovima **i** ili **y**, jer se na engleskom slovo **j** izgovara kao *džej* ili *dž*. Svi se iz medija sjećaju bivše američke ambasadorke u Ukrajni čije je prezime Yovanovitch, što je jedna od permutacija prezimena Jovanović koje je jako često u Crnoj Gori, a koje se srijeće i u sljedećim oblicima: Iovanovich, Iovanovitch, Jovanovich, Yovanovic, Yovanovich i dr.

Još jedan interesantan primjer izostavljanja slova **j** kod imena poznatih ličnosti našeg porijekla imamo kod pokojnog guvernera Aljaske Majka Stepovića (Mike Stepovich) čije je pravo prezime Stijepović.

Slično se dešavalo s imenima i prezimenima koja sadrže slovo **đ**, odnosno **dj**, u tim slučajevima sve je pretvoreno u slovo **d**.

Ima i slučajeva gdje je prezime prevedeno na engleski ili samo skraćeno, npr. Dabović u Dab, ili je izvršena izmjena nekoliko karaktera pa se tako npr. prezime Krivokapić piše na nekoliko načina - Crivokapich, Krivocapich, Crivocapich; prezime Đukanović kao Ducanovich, Doucanovich, Djukanovich, Jukanovich, Giucanovich; Đuričić kao Jurichich, Djurichich, Giuricich, prezime Janković se gotovo uvijek piše kao Iancovich, Yankovich ili pak Yancovich kao u primjeru poznatog americkog komičara Alfreda Metjua Jankovića - Alfred Matthew „Weird Al“ Yankovic, prezime Kalezić kao Calezich, Kalezich, Calesich ili pak Caleszich, a moguća su i mnoga druga odstupanja uključujući i suvišna slova koja su bila rezultat ne samo transkripcije, već najčešće birokratskih grešaka u prepisivanju prezimena prilikom doseljavanja.

Uputstva i objašnjenja u popisima s prezimenima

Podaci koji su dati u popisima sadrže preko 13.000 imena i prezimena s osnovnim podacima ljudi koji su za referentni podatak imali odrednicu „Crna Gora“ kao mjesto rođenja, dolaska, porijekla i dr.

Među ovim podacima ima pogrešno upisanih imena, zamjena imena s prezimenima, imena i prezimena prilagođenih engleskom govornom području, zatim onih koja su prilagođena španskom govornom području (dosta je reemigranata koji su prije dolaska u SAD boravili u Meksiku, Argentini, Kanadi, Novom Zelandu, Australiji, Rusiji, Turskoj, Bliskom Istoku, Italiji, Njemačkoj i drugdje) kao i italijaniziranih imena i prezimena, te onih koja su izmijenjena greškom pri upisu ili su pak potpuno izostavljena. Greške su najčešće nastajale prilikom transkripcije imena, prezimena kao i mjesta rođenja, koje su bile prisutne u preko 60% slučajeva.

Kao što je navedeno u prvom dijelu teksta, najkomplikovaniji dio su imena i prezimena, budući da je prošlo preko 100 godina i da je riječ o digitalizovanim dokumentima koji su u to vrijeme pisani i prepisivani ručno.

Neka imena bilo je relativno lako prepoznati i vratiti u izvorni oblik, dok je za druge to bilo dosta teško. Na kraju, kao što se vidi iz priloženog, imena i prezimena podijelili smo u dvije grupe:

- ona koja su označena sa zvjezdicom -*, a to su imena i prezimena koja su amerikanizovana, hispanizovana, odnosno potpuno prilagođena drugom jeziku,

- ona koja su označena sa bodežom - † su imena za koja nijesmo bili sigurni koja bi mogla biti originalna crnogorska verzija.

Napominjem da smo radi čitljivosti dokumenta, zajedno s autorkom prilagodili ona imena i prezimena za koja je bilo moguće utvrditi pravu ili nabližu moguću verziju originala.

Neki primjeri

Prilikom pretraga savjet je da se obrati pažnja i na prezimena koja su slična po zvučnosti ili transkripciji te da se uporede svi dostupni podaci jer su upravo najveće varijacije kod iseljeničkih prezimena.

Prilikom čitanja popisa često se može sresti da je umjesto imena ili prezimena upisano očevo ime, npr. Lazarev, Vukov, Perov i dr. Isto tako, nekada su i imena mjesta data umjesto prezimena ili imena.

Amerikanizovana imena kao što su Mike, Jean i dr, ostavljali smo u tom obliku budući da je nemoguće zaključiti alteracijom koje od mnogobrojnih originalnih verzija imena su ona nastala. Na primjer za ime Majk (Mike) neke od mogućnih opcija su Mihailo, Miško, Milutin, Mića, Mikan, Mitar i dr.

Neke od grešaka u upisima prezimena su u samo jednom slovu, pa samim tim ne mora da znači da je upisano prezime potpuno tačno. Naime, kada se traži neka osoba pod odgovarajućim prezimenom neophodno je pogledati i pod sličnim prezimenima, te pritom obavezno obratiti pažnju i na ostale dostupne podatke (zanimanje, mjesto porijekla, godina rođenja) kako bi se ta osoba identifikovala.

Isti je slučaj i s imenima. Neka imena kao Nicholas, Pete i druga, namjerno nijesmo pretvarali u najbližu moguću crnogorsku formu Nikola ili Petar kako bi se moglo vidjeti koliki je bio stepen asimilacije.

Često su umjesto punih imena korišćeni nadimci. Korišćenje nadimaka, pa i onih koji su samo malo ličili na originalna imena, bilo je često u SAD-u zbog velikog broja emigranata iz cijelog svijeta. Zbog nemogućnosti da se jezik prilagodi svim tim imenima koja su dolazila iz brojnih različitih jezika, često su davani kratki nadimci koji su kasnije usvajani kao imena.

Ono što ovo djelo čini naročito zanimljivim je što se na osnovu njega mogu pratiti i neka početna migraciona kretanja manjinskih naroda u Crnoj Gori ka SAD-u. S druge strane, veoma je zanimljiv proces reemigracija. Veliki broj mjesta boravka izvan Crne Gore prije ulaska u SAD govori o mobilnosti emi-

grantske radne snage iz naše zemlje, koja bi nakon nekoliko godina provedenih na jednom kontinentu u nekom trenutku nastavljala pečalbu na drugom kontinentu.

Iako je naša stara emigracija smatrana za uglavom „mušku“, što se vidi i iz ovog dokumenta, po prvi put je zapisan i značajan broj žena iz Crne Gore koje su bile rane emigrantkinje ka novom svijetu.

Prilikom čitanja podataka posebnu pažnju treba obratiti na mjesta porijekla-iseljenja-rođenja. Kod onih koji su reemigrirali često je navedeno samo mjesto odakle je osoba reemigrirala. Kada je riječ o mjestima u Crnoj Gori, i kod njih je bilo istih problema kao s transkripcijom prezimena, pogrešni upisi ili slobodne interpretacije prilikom upisa. Takođe, neka od upisanih mjesta ne nalaze se u Crnoj Gori, već na teritoriji drugih zemalja, dok najveći broj nedoumica prilikom ispravki javio se kod mjesta kojih nema na dostupnim kartama.

Vjerovatno se dijelom radi o veoma lokalnim toponimima ili zaseocima koji nijesu upisani u kartama tj. koji su poznati samo ljudima koji žive u tim krajevima. Moguće je i da se jedan dio lokalnih naziva izgubio budući da je prošlo preko 100 godina od njihovog upisa, kao i da je izvršena potpuno pogrešna transkripcija zbog čega su takva mjesta stavljena pod navodnike.

Primjeri ispravki prezimena u popisima

Prilikom vraćanja prezimena u originalnu formu na crnogorskom, vodili smo se izgovorom engleske transkripcije na osnovu čega bismo utvrdili iz kojeg crnogorskog prezimena je data forma nastala. Negdje su u pitanju bile samo male prepravke grešaka u prepisu slova, dok je opet mnogo primjera gdje je postojala kombinacija pogrešne transkripcije i slovnih grešaka u prepisu. Slična situacija je bila i s imenima i mjestima rođenja. U donjem dijelu teksta dat je prikaz nekih prepravki iz verzije prezimena koja je bila upisana u američkim izvorima u verziju koja se nalazi u ovom izdanju.

UVOD

Preko 10.000 Crnogoraca došlo je u Sjedinjene Američke Države između 1900. i 1910. godine. Oni su se pridružili nekolicini koja je doselila tokom devetnaestog vijeka.¹ Do priliva imigranata došlo je prije svega iz ekonomskih razloga. Doseljenici, koji su u 99% slučajeva su bili muški predstavnici crnogorske glavne radne snage, kuličili su u rudnicima i na poljima, u nenaseljenim pograničnim krajevima pomagajući izgradnju infrastrukture Sjedinjenih Država koja se rapidno razvijala. Ljudi su se grupisali ili su im se pridruživale porodice postajući dio američkog društva. Skoro svi su zadržali bliske veze sa svojim rodnom krajem sve dok Crnu Goru nijesu zahvatili događaji koji su prerasli u Prvi svjetski rat. Mnogi su se vratili kući da se bore². Drugi su odlučili da se bore u Velikom ratu s američkim snagama. Kasniji ratovi, političke promjene, uništavanje evidencije i protok vremena, često bi izbrisali tragove njihovog predašnjeg života u Crnoj Gori.

Potomci ovih imigranata su, 2017. godine, u saradnji s Maticom crnogorskom i Vladom Crne Gore, završili projekat rekonstrukcije nekih zaboravljenih istorijskih događaja. Javne informacije iz Nacionalnog arhiva Sjedinjenih

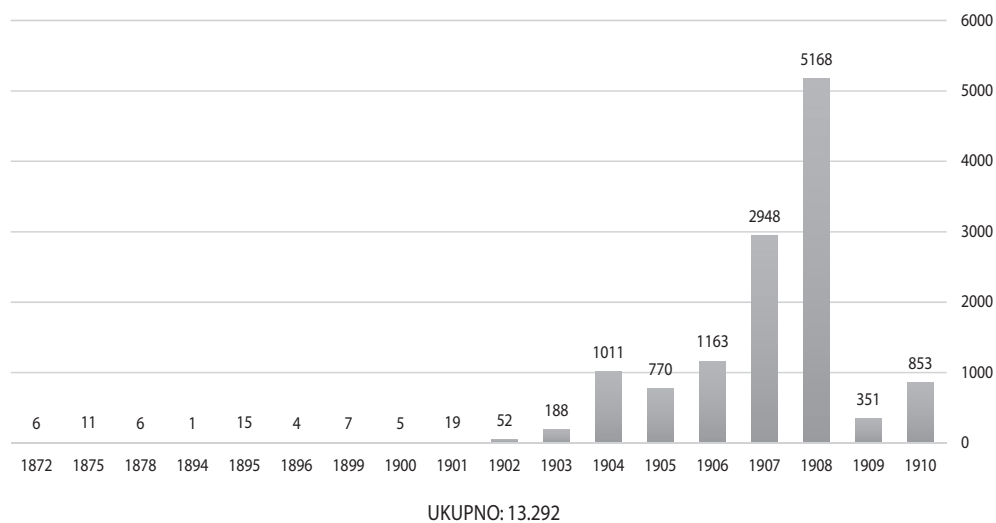

¹ Na osnovu podataka o dolascima, bez ponavljanja za putnike koji su dolazili više puta. Podaci iz popisa Sjedinjenih Država pokazuju da je 1900. godine bilo 43 crnogorska rezidenta u SAD-u a 1910. godine čak 5.381. Podaci o broju imigranata izgledaju značajniji kada se uporede s ukupnim brojem stanovnika Crne Gore koji je iznosio između 200.000 i 312.000 u 1900. godini i 317.856 u 1909. godini. Cf. Raković, Aleksander. „Crnogorski popis od 1909. do 2003. godine“. <http://www.njegos.org>. Pristupljeno 17.07.2017.

² Hiljade Crnogoraca vratilo se iz Sjedinjenih Država i Kanade da se pridruže odbrani svoje domovine tokom Prvog svjetskog rata. Drugi su slali novac da pomognu ratne napore. Velika tragedija dogodila se 6. januara 1916. godine kada je talijanski brod Brindisi naišao na minu i potonuo na posljednjoj dionici na putu kući. Poginulo je skoro 400 putnika. Većina su bili Crnogorci iz Sjeverne Amerike koji su se vraćali kući da se bore. <http://www.bokanews.me/featured/25155/>. Pristupljeno 16.07.2017.

Država (SAD) prikupljene su kako bi se digitalizovalo preko 18.000 potpunih evidencija crnogorskih imigranata koji su pristizali i živjeli u Sjedinjenim Državama između 1860. i 1910. godine. Ovo je jedan od nekoliko projekata kroz koje je dokumentovano doseljavanje Crnogoraca u Sjevernu i Južnu Ameriku, Australiju i druge krajeve svijeta.

Ovaj popis je izbor iz kompletne evidencije, uz odgovarajući indeks. Obuhvaćeni su dolasci imigranata, preko 13.000 evidencija crnogorskih državljana koji su stigli u američke morske i kopnene luke, naročito ostrvo Elis u Njujorku, ali i u manje luke kao što su Boston, Detroit, Galveston, ili Nju Orleans – kao i kopnene luke na američkim sjevernim i južnim granicama s Meksikom i Kanadom. Još preko 5.000 podataka detaljno opisuje prebivalište pojedinaca rođenih s crnogorskim državljanstvom i prve generacije njihovih potomaka rođenih u Sjedinjenim Državama u vrijeme popisa stanovništva 1860, 1870, 1880, 1900, i 1910. godine. Svi podaci prepisivani su direktno sa slika originala, ručno pisanih deklaracija i popisnih listova. U naknadnim analizama standardizovana su mnoga lična imena putnika i nazivi mjesta.

DOLASCI CRNOGORACA U SAD: 1872-1910.

Godina	1872.	1875.	1878.	1894.	1895.	1896.	1899.	1900.	1901.

Izvorne evidencije

Sveobuhvatni podaci o putnicima i popisu bogat su izvor informacija o identitetu i okolnostima doseljenika. U štampani izvještaj ne mogu biti uključene sve informacije; međutim, moguć je uvid u niz detalja dostupnih u potpunim izvornim evidencijama.

Evidencija dolazaka imigranata

Pojedinačna identifikacija: svaki pojedinac identifikovan je imenom i prezimenom, te podacima o starosnoj dobi, polu, bračnom statusu, sposobnosti čitanja i pisanja, državljanstvu, etničkoj pripadnosti, zanimanju, itd. Sve osobe iz ove baze podataka prijavile su da imaju crnogorsko državljanstvo. Većina je prijavila crnogorsku nacionalnost, a neki srpku.

Fizički opis: detalji o fizičkim karakteristikama osoba i zdravlju dodati su 1906. godine. Oni uključuju zdravstveno stanje, mentalno i fizičko, utvrđeno pri pregledu; opis hendikepa ili deformiteta; bilješke o ožiljcima i/ili drugim prepoznatljivim karakteristikama; i uobičajene podatke o visini, tenu, boji kose i očiju.

Informacije o ulasku imigranata: svaki zasebna evidencija uključuje zapis inspektora će se navodi da li osoba ima dozvolu da uđe u Sjedinjene Države, i ako ne, da li joj je zabranjen ulazak ili je zadržana iz medicinskih, zakonskih ili proceduralnih razloga. Njujorške evidencije takođe nude detalje o razlozima za bilo koji postupak, datumu odluke za svaki neriješeni postupak, imenima brodova za one koji su deportovani, i američkim kontaktima za novčane zahtjeve i verifikaciju odredišta.

Podaci o transportu: kompletne evidencije sadrže datume iskrcavanja i ulaska u Sjedinjene Države, nazive luka iskrcavanja i ulaska, naziv parobroda za pomorske putnike ili železnice za kopnene putnike.

Kontakti u domovini i adrese: prethodno boravište svakog imigranta navedeno je u svakoj evidenciji, uključujući zemlju i, nakon 1896. godine, grad. Neki crnogorski imigranti boravili su izvan Crne Gore prije dolaska u Sjedinjene Države. U oktobru 1906. godine, dodato je i mjesto rođenja putnika. Počevši od avgusta 1907. godine, od imigranata je traženo da identifikuju svoje prve srodnike u Crnoj Gori, srodstvo ovih lica i njihove adrese.

Odredišta i kontakti u Sjedinjenim Američkim Državama: u većini evidencija navedeni su grad i država u Sjedinjenim Državama će se imigrant

uputio. Navodi se takođe i ime, odnos i adresa osobe s kojom će se sastati na konačnoj destinaciji. Tu spadaju rodbina i posrednici. Dvije adrese, adresa odredišta i adresa kontakta, nijesu uvijek iste. Kontakt je mogao biti lociran na mjestu izvan glavne tačke navedene u prvom odredištu. Na primjer, osobi koja se uputila u transportno čvorište u Čikagu, Illinois, krajnje odredište mogli su biti Bjut, Montana; Čišolm, Minesota; Glenko, Ohajo itd. Izgleda da su se posredničke lokacije nalazile u čvorištima, odakle su imigrantni putovali do mjesta zapošljenja. U nekim slučajevima, čvorišta su bili hoteli ili restorani.

Dodatni detalji: mnoge evidencije uključuju dodatne informacije koje je dodao imigracioni inspektor ili su izvedene iz okolnosti putovanja. Uključene su stavke kao što su porodični odnosi sa saputnicima; prethodni ulasci u SAD; detalji o imigracionom pritvoru, i niz drugih faktora.

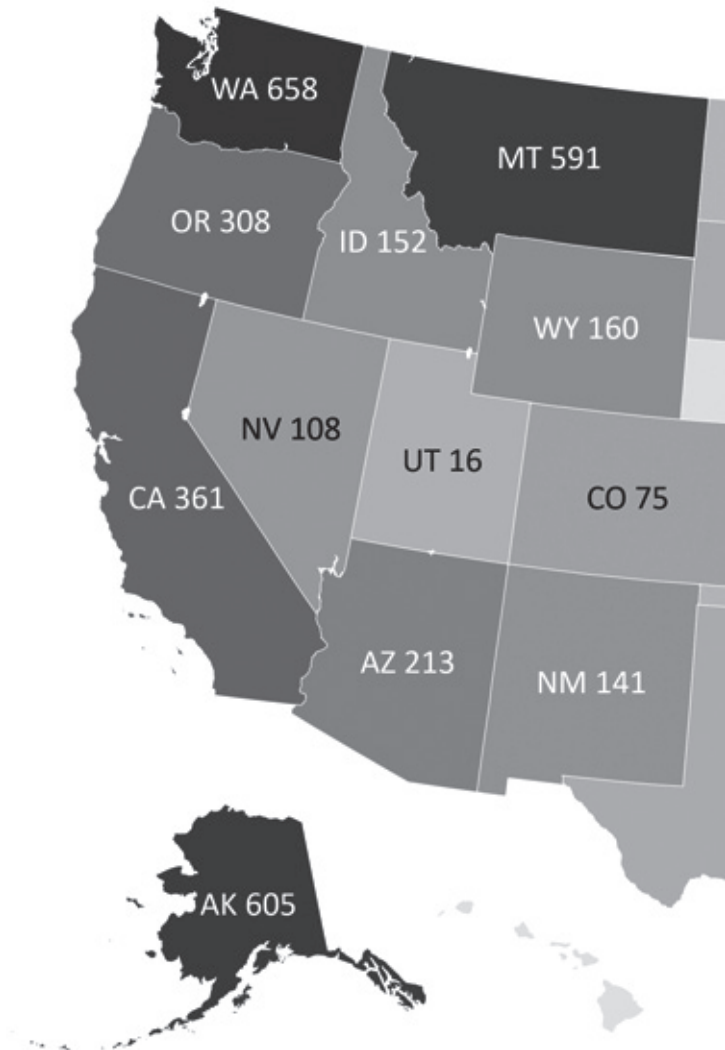

Izvori informacija: infomacije o dolascima dobijene su iz 19 pomorskih ulaznih luka, četiri ulazne kopnene luke, jedne kombinovane pomorsko-kopnene luke (Vankuver, Britanska Kolumbija) na Tihom okeanu u Kanadi sjeverno od države Vašington u SAD-u. Većina (90%) svih imigranata došlo je preko ostrva Elis u ulaznoj luci Njujorka. Mnogi koji su došli putem pomorske luke kasnije su ponovo uračunati kada su ušli u SAD putem kopnenih luka nakon puta u Meksiko i Kanadu, ili tranzita kroz Kanadu iz Aljaske.

ULAZNA LUKA	VRSTA LUKE	DOLAZAK	BROJ

ŠTO JE SADRŽANO U OVOM PREGLEDU

Evidencije dolazaka imigranata

- A. **FAMILY/PORODICA:** prezime navedeno u deklaraciji i, po mogućnosti, usklađeno s crnogorskom verzijom imena.
- B. **1st NAME/IME:** ime kako je navedeno u deklaraciji. Vrlo je malo promijenjeno ili standardizovano u ovim imenima zbog njihove često subjektivne prirode. Na primjer, teško je znati da li je čovjeku koji se zove „Jack“ rođeno ime bilo Jovan, John, Johan, Janko ili nešto potpuno drugačije poput „Petar“!
- C. **Datum rođenja/DOB:** godina rođenja date osobe.
- D. **POL/ GENDER:** osoba muškog (M) ili ženskog roda (F).
- E. **ZANIMANJE/OCCUPATION:** navedeno zanimanje osobe. Cf. Dodaci D i H.
- F. **IZ/FROM:** najbolje dostupne informacije o gradu, opštini i zemlji prebivališta imigranta prije imigracije. Može se zasnivati na mjestu rođenja, plemenskoj teritoriji, privremenom prebivalištu ili rodbinskoj adresi. Āe je to bilo moguće, podaci o prethodnom prebivalištu standardizovani su prema sadašnjem zvaničnom pravopisu. Opštine su dodate prema potrebi.
- G. **DATUM DOLASKA/ARRIVED:** datum kada je osoba stigla u SAD.
- H. **U/AT:** luka dolaska (kopnene i pomorske luke) preko koje je immigrant ušao u SAD, a to su:
- 1) Njujork,
 - 2) Aljaska,
 - 3) atlantičke luke,
 - 4) Baltimor, Merilend,
 - 5) kanadska granica,
 - 6) meksička granica,
 - 7) Boston, Masačusets,
 - 8) Kalifornija,
 - 9) Detroit, Mičigen,
 - 10) Honolulu, Havaji,

- 11) Nju Orleans, Luizijana,
- 12) Filadelfija, Pensilvanija,
- 13) Galveston, Teksas.

I. ULAZAK/ENTRY: da li je osoba primljena u SAD?

- 1) OK: Putnik primljen u SAD direktno ili nakon što je zadržan iz proceduralnih ili medicinskih razloga.
- 2) XX: Osoba zadržana iz medicinskih ili proceduralnih razloga s nepoznatim krajnjim ishodom ili zadržana u luci za iskrcavanje u karantinu zbog kolere.
- 3) NB: *Nije na brodu*. Odnosi se na putnike koji su se predomislili ili nestali.
- 4) VIA: u tranzitu. Ove osobe su ušle u Sjedinjene Države samo u svrhu putovanja u drugu američku luku radi izlaska iz SAD-a, npr. putovanje od sjeverozapada Kanade preko SAD-a do luke Njujork radi povratka kući u Crnu Goru.
- 5) NE: Putnik je deportovan, tj. nije primljen u SAD, i poslat na povratno putovanje do svog mjesta iskrcavanja.

J. ODREDIŠTE/DESTINATION: pretežno američki grad, okrug i država u koju je osoba putovala. Ako se putovalo do okružne lokacije, grad se ne navodi. Nekoliko Crnogoraca ušlo je u američke luke radi daljeg putovanja u drugu zemlju poput Kanade ili Meksika u Sjevernoj Americi. To se dogodilo upravo jer su neki imigranti prvo ulazili u SAD iz Južne Amerike, Meksika ili Kanade. Neki putnici ušli su u SAD u jednu od brojnih luka samo u prolazu putujući ka daljim lokacijama izvan kontinentalnog dijela SAD-a. Na primjer, radnik na Aljasci ili u Kanadi mogao je da uđe u SAD u državi Vašington, a zatim otputuje u glavnu luku Njujorka radi putovanja kući u Evropu. Ova vrsta putovanja označena je kao „Via“ kada krajnje odredište nije poznato.

K. Identifikacioni broj/IRID - Individual Record Identification: jedinstveni identifikacioni broj koji se dodjeljuje svakoj pojedinačnoj evidenciji i ostaje povezan s tim određenim zapisom. Ovaj broj se može koristiti za lociranje cijelog zapisa u automatizovanoj bazi podataka ili u druge svrhe.

ENGLISH-MONTENEGRIN DICTIONARY	873
ABOUT THE AUTHOR	882

EDITOR'S INTRODUCTION

Before you is the major work of Sharyn Novotny Andrich (Andrijašević), who managed to collect and systematize the hitherto unpublished official documentation on the migration of Montenegrins to the United States from the end of the 19th and beginning of the 20th century.

We can freely say that even countries with a much longer institutional tradition in the field of research on the migration to the New World (in this case the USA) do not have such material. This work is undoubtedly, in the genealogical sense, the basis for any further and more detailed research endeavor, and especially, for future archaeological census of living descendants of the Montenegrin emigrants in the USA listed in this work.

Based on my experience, but also the experience of others around the world who have been dealing with this scientific field for decades, this census would certainly exceed the previous, mainly rough estimates and help create a solid database. Also, in the long run, it will enable a stronger connection of this part of the old immigration with the country where their ancestors came from, Montenegro, and also strengthen our relations with cities, regions and federal states as well as the United States as a whole. This work represents a very important contribution to the relations between the USA and Montenegro in accordance with the best tradition.

Ms. Novotny's many years of work allow us to get acquainted with a part of the history shared by Montenegro and America. This is evidenced by a large number of data on Montenegrin emigrants who simultaneously participated in the construction and industrialization of the United States and helped their families and Montenegro. In that sense, it is really a great contribution to the study of the common history and the establishment of ties between our two countries.

Very little is still known about our old immigration in the United States and North America in general, and especially about their collective or individual contribution to the USA's progress, which was disproportionately large, considering what Montenegro was and remained in terms of population and territory compared to other countries from which thousands of immigrants arrived in the United States at the same time.

Ms. Novotny's work is important for many other reasons. It can provide evidence of entry into the United States, place of residence, citizenship, and general information about the Montenegrins who emigrated to the United States legally at the time. By analyzing the presented data, it is possible to find out from which part of Montenegro most of our people emigrated to the USA, in which parts of the USA they settled the most, the average age of emigrants, gender structure, as well as their occupations when arriving to the USA. It is also possible to find data on routes, modes of transport, European ports from where emigrants were leaving, countries where the headquarters of companies that transported emigrants were located, as well as very interesting data on re-emigration, which, as can be seen from the lists, most often moved from South America, Canada and Mexico, with the re-emigration from South America being mainly by ship, while from Mexico and Canada by land.

What was de facto the biggest problem in the process of transferring and translating data was the transcription of names and surnames, as well as the supplementation of the missing data and corrections. Optimizing data for the audience in Montenegro was a huge challenge, first of all for the author, and then for everyone else who worked on the book and enabled its publishing in this form. All possible mistakes were either impossible to completely eliminate or bring into optimal form due to large alterations of names and frequently missing data.

Namely, our emigrants did not know English well when entering and settling in the USA, (the first emigrant dictionary was printed in Chicago, in September 1915, in the printing house of Dušan B. Popović) so their names, surnames and places of birth were often written according to the sound and interpretation of officials who spoke mostly only English. Later, the names registered in this way were copied into official documents upon naturalization.

What was common to all emigrants from non-English-speaking countries is that their names were often written according to their phonetic value in English, or in a smaller number of cases the names were translated, like „Pe-

tar“ to „Pete“. However, in most cases the names were copied, where again we found a large number of errors.

For the sake of comparison, in the case of immigrants in Mexico, the names were mostly translated, for example: „Petar“ to „Pedro“ or transcribed, e.g. Vukosava to Vucosaba. In the United States, however, a complete change of name and surname was much more common, not only among our emigrants but among emigrants from all countries.

I will mention as an example Jeff Marx, the famous dentist from Oregon of Montenegrin descent, from the Mijušković family, who visited Montenegro several times and even found his closest relatives. Then we have examples from the neighborhood, such as the actor of silent movies John Miljan born Jovan Miljanović, and Karl Malden born Mladen Sekulović from Bileća, and why not mention the grandfather of the author of this work whose last name was Andrijašević, which in the USA was abbreviated to Andrich (Andrić in Montenegrin). There is also a well-known lobbyist from Alaska, originally from Kolašin, Alex Miller, whose last name was Milajić; and then John Malkovich, whose last name comes from this region, and according to him, maybe from Montenegro. It is difficult to determine the precise original form, just as for most of the listed surnames that have been altered.

In a large number of cases, surname alterations simply did not leave traces of the original form. I remember an interview I did with Don Bolich (Don Bolić) in 1999 about a small Montenegrin colony in Wyoming. Don Bolić was born in the USA to a family of emigrants from Montenegro named Bjelica.

Examples of records of our names and surnames in English databases

In names and surnames, the letter **c** often replaces the letters **ć**, **č** and **k**. Also, the letter **j** is sometimes replaced by the letters **i** or **y**, because in English the letter **j** is pronounced /'dʒeɪ/ or /dʒ/. Everyone remembers from the media the former US ambassador to Ukraine whose surname is Yovanovitch, which is one of the permutations of the surname Jovanović, very common in Montenegro, and which is also found in the following forms: Iovanovich, Iovanovitch, Jovanovich, Yovanovic, Yovanovich and others.

Another interesting example of omitting the letter j in the names of famous people of our origin is the case of late Governor of Alaska, Mike Stepovich (Stepović), whose original surname was Stijepović.

A similar thing happened with names and surnames that contain the letter **đ**, or **dj**, in which case everything was turned into the letter **d**.

There are also cases where the surname is translated into English or only abbreviated, e.g. Dabović to Dab, or several characters were changed, so for example, the surname Krivokapić is written in several ways - Crivokapich, Krivocapich, Crivocapich; surname Đukanovic as Ducanovich, Doucanovich, Djukanovich, Jukanovich, Giucanovich; Đuričić as Jurichich, Djurichich, Giurichich, surname Janković is almost always written as Iancovich, Yankovich or Yancovich as in the example of the famous American comedian Alfred Matthew Janković - Alfred Matthew „Weird Al“ Yankovic, surname Kalezić as Calezich, Kalezich, Calesich or Caleszich, and many other deviations are possible including redundant letters that were the result not only of transcription, but most often of bureaucratic errors in copying during immigrant reception.

Instructions and explanations in the lists with surnames

The data given in the passenger manifests contain over 13,000 names and surnames with basic information about people who had the determinant „Montenegro“ as a place of birth, destination, origin, etc. for reference data.

Among these data there are incorrectly entered names, first names mixed with surnames, first names and surnames adapted to the English language, then those adapted to the Spanish language (there were many re-immigrants who lived in Mexico, Argentina, Canada, New Zealand, Australia, Russia, Turkey, the Middle East, Italy, Germany and elsewhere before coming to the US) as well as Italianized first names and surnames, and those that have been altered by typographical errors or have been completely omitted. Errors most often occurred in the transcription of names, surnames and places of birth, and were present in over 60% of cases.

As stated in the first part of this introduction, the most complicated part were the names and surnames, since these are digitized documents that were written and copied by hand over 100 years ago.

Some names were relatively easy to recognize and change back to their original form, while for others it was quite difficult. Finally, as can be seen from the published material, we divided the names and surnames into two groups:

- those marked with an asterisk - * i.e. names and surnames that are Americanized, Hispanized, or completely adapted to another language,
- those marked with dagger - † where we were not sure which could be the original Montenegrin version of the name.

I note that for the sake of readability of the document, together with the author we adapted the names and surnames for which it was possible to determine exact or the most probable version of the original.

Some examples

When searching, the advice is to pay attention to surnames that are similar in sound or transcription and to compare all available data, because the largest variations occur in emigrant surnames.

When reading the list, we often find that the father's name is entered instead of the first name or surname, e.g. Lazarev, Vukov, Perov etc. Likewise, sometimes names of places are given instead of surnames or first names.

We left Americanized names, such as Mike or Jean, in that form since it is impossible to conclude which of the many original versions of the names they were derived from. For example, for the name Mike some of the possible options in Montenegrin are Mihailo, Miško, Milutin, Mića, Mikan, Mitar, etc.

Some of the errors in the registration of surnames are in only one letter, so a surname that appears correct may not in fact be correct. Namely, when looking for a person with a certain surname, it is necessary to look under similar surnames as well, and at the same time make sure to pay attention to other available data (occupation, place of origin, year of birth) in order to identify that person.

We have the same case with first names. Some names, such as Nicholas, Pete and others, we deliberately did not change to the most probable Montenegrin form, Nikola or Petar, in order to show the level of assimilation.

Nicknames were often used instead of full names. The use of nicknames, even those that only slightly resembled the original names, was common in the United States due to a large number of emigrants from around the world.

Since it was impossible to adapt the language to all these names that came from a number of different languages, immigrants often got short nicknames which were later adopted as names.

What makes this work especially interesting is that it allows us to observe the initial migration movements of minority peoples in Montenegro towards the USA. On the other hand, the re-emigration process is very interesting as well. A large number of places of residence outside Montenegro before entering the United States speaks of the mobility of the emigrant labor from our country, who after several years spent on one continent would at some point continue their journey on another.

Although our old emigration was considered to be mostly „male“, which can be seen from this document, for the first time we have recorded a significant number of women from Montenegro who were also early emigrants to the new world.

When reading the data, special attention should be paid to the places of origin-emigration-birth. For those who re-emigrated, often only the place from which the person re-emigrated was registered. When it comes to places in Montenegro, we also had the same problems as with the transcription of surnames, incorrect entries or free interpretations in registration. Also, some of the registered places are not located in Montenegro but on the territory of other countries, while most ambiguities occurred in names of places that are not on the available maps.

These are probably, in some cases, very local toponyms or hamlets that are not marked on maps, i.e. which are known only to the people living in those parts. It is also possible that some of the local place names have been lost since more than 100 years have passed since their registration, or a completely incorrect transcription has been made, which is why such places are put inside quotation marks.

Examples of surname corrections in the lists

When we changed back surnames to their original form in Montenegrin, we were guided by the pronunciation of the English transcription, on the basis of which we would determine from which Montenegrin surname the given form derived. In some cases, there were only minor corrections of spelling errors, whereas there are many examples where there was a combination of

transcription alterations and spelling errors. The situation was similar with names and places of birth. Below is a review of some corrections from the versions of the surnames written in American sources to the versions given in this edition.

- Ukmanović to Vukmanović
- Uksanović to Vuksanović
- Tchourchija to Ćurčija
- Teshar to Tesar
- Jurišić to Đurišić
- Jurjevac to Đurđevac

- Vukosanović to Vukosavović
- Vukšurović to Vušurović
- Sekloća to Sjekloća
- Slaticanin to Zlatičanin.

Gordan Stojović

INTRODUCTION

Over 10,000 Montenegrins arrived in the United States during the years 1900 through 1910. They joined a handful who had immigrated during the 1800s.¹ The influx occurred primarily out of economic necessity. The immigrants, 99 percent of whom were male members of Montenegro's main work force, toiled in mines and fields and along unsettled frontiers to help build the rapidly developing infrastructure of the United States. Scores established or were joined by families and became part of U.S. society. Almost all maintained close ties to their homeland until Montenegro was caught in the events that erupted into World War I. Many returned home to fight.² Others enlisted to fight the same Great War, *albeit* with American forces. Subsequent wars, political change, destruction of records, and the passage of time often erased traces of their prior existence in Montenegro.

In 2017, descendants of these immigrants, in cooperation with Matica Crnogorska and the Government of the Republic of Montenegro, completed a project to recreate some of the lost history. Public information from the National Archives of the United States (U.S.) was gleaned to digitize over 18,000 full records of Montenegrins immigrants arriving and living in the United States during the years 1860 through 1910. The project is one of several to document

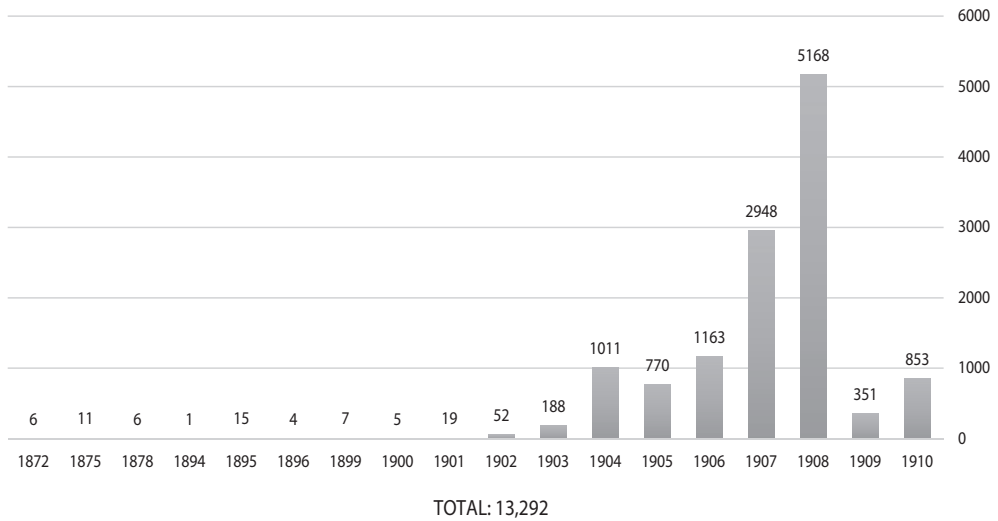

¹ Based on arrival data minus duplications for repeat travelers. U.S. Census records indicate 43 U.S. Montenegrin residents in 1900 and 5,381 in 1910. The immigration figures appear more significant when seen alongside Montenegro's total population which was between 200,000 and 312,000 in 1900 and 317,856 in 1909. Cf. Raković, Aleksander. „Montenegrin Census from 1909 to 2003“. <http://www.njegos.org>. Retrieved 2017-07-17.

² Thousands of Montenegrins returned from the U.S. and Canada to join the defense of their homeland during WWI. Others sent money to aid the war effort. A great tragedy occurred on January 6, 1916 when the Italian ship Brindisi struck a mine and sank on the last leg of the trip home. Nearly 400 passengers were killed. Most were Montenegrins from North America returning home to fight. <http://www.bokanews.me/featured/25155/>. Retrieved 2017-07-16.

the immigration of Montenegrins to North and South America, Australia, and other areas.

This listing is a selection of the full records, and an index to them. Included are Immigrant Arrivals, over 13,000 records of Montenegrin Nationals arriving at U.S. sea and land ports, most notably Ellis Island in New York, but also lesser ports such as Boston, Detroit, Galveston, or New Orleans -- plus land ports at the U.S. northern and southern borders with Mexico and Canada. Another 5,000-plus records detail the residence of Montenegrin-born individuals and their first generation offspring in the United States at the time the Censuses were taken in 1860, 1870, 1880, 1900, and 1910. All data were transcribed directly from images of the original, handwritten manifests and enumeration sheets. Subsequent analyses standardized many of the travelers' personal and place names.

MONTENEGRIN ARRIVALS IN THE USA: 1972-1910

The Source Records

The full passenger and Census records are rich sources of information concerning the identity and circumstances of the immigrants. Not all information can be included in the printed report; however, a glimpse is possible of the range of details available in the full source records.

Immigrant Arrival Records

Individual Identification: Every individual is identified by first and last name, age, gender, marital status, ability to read and write, nationality, ethnicity, occupation, etc. All individuals in this data base listed their nationality as Montenegrin. Most listed ethnicity as Montenegrin, seconded by Serbian.

Physical Descriptions: Details concerning the person's physical characteristics and health were added in 1906. These include conditions of health, mental and physical, as determined by an examination; descriptions of handicaps or deformities; noting of marks and/or other distinguishing characteristics; and the usual descriptors of height, complexion, hair and eye color.

Immigration Entry Information: Each individual record includes a notation by the Inspector that states whether the person was permitted to enter the United States, and if not, whether they were debarred from entry or held for a medical, legal, or procedural issue. The New York records also provide details concerning the reason for any action, date of resolution for each pending action, the names of ships for those deported, and U.S. contacts for requests of money and verification of destination.

Transportation Facts: Included in the full record are dates of debarkation and entry into the United States, ports of debarkation and entry, the name of the steamship for sea travelers or railway for land.

Home Contacts and Addresses: The prior residence of each immigrant is listed in each record, including the country and, after 1896, the city. Some Montenegrin immigrants were residing outside Montenegro prior to travel to the United States. In October 1906, the traveler's place of birth was added. Beginning in August 1907, immigrants were asked to identify their next-of-kin in Montenegro, the relationships of these individuals, and their address.

U.S. Destinations and Contacts: Most records identify the U.S. city and state where the immigrant was destined. They also identify the name, relationship and address of the individual whom they would meet at their ultimate de-

stination. These include relatives and brokers. The two addresses, those of the destination and those of the contact, are not always the same. The contact may have been located at a place beyond the major point listed in the first destination. For example, a person destined for the transportation hub of Chicago, IL may have been ultimately destined for Butte, MT; Chisholm, MN; Glencoe, OH; etc. It appears that „brokerage“ locations existed at the hub, from which the immigrants traveled to the actual place of employment. In some cases, the hubs were hotels or restaurants.

Additional Details: Many of the records include additional information, either added by the immigration inspector or deduced from the circumstances of travel. Included are such items as familial relationships with fellow passengers; past entry into the U.S.; details of immigration detainment, and a variety of other factors.

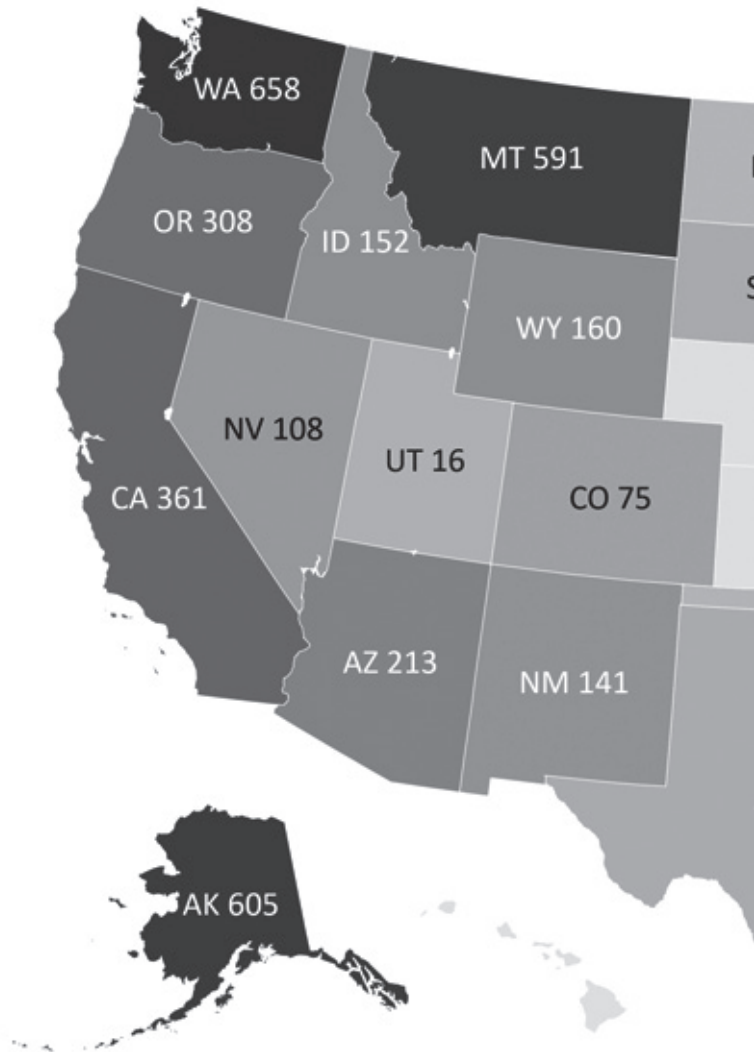

Sources of Information: The arrival information originates from 19 Sea Ports of Entry, four Land Ports of Entry, and one combined sea/land port (Vancouver, British Colombia) on the Pacific Ocean in Canada just north of Washington State in the USA. Most (90 percent) of all immigrants arrived through the Ellis Island facility at the New York Port of Entry. Many who arrived via a Sea Port, were later double counted entering the USA though a land port after travel to Mexico and Canada, or transit through Canada from the Territory of Alaska.

PORT OF ENTRY	TYPE OF PORT	ARRIVAL	NUMBER

WHAT'S INCLUDED IN THIS REPORT

Immigrant Arrival Records

- A. **FAMILY:** The family name listed on the manifest and, as possible, standardized to the Montenegrin form of the name.
- B. **1ST NAME:** The first name as listed on the manifest. Very little has been changed or standardized in these names because of their often-subjective nature. For example, it is difficult to know if a man going by the name of „Jack“ has the given name of Jovan, John, Johan, Jancho, or something totally different like „Petar“!
- C. **DOB:** Year in which the person was born.
- D. **G or GENDER:** Whether the person is Male (M) or Female (F).
- E. **OCCUPATION:** The cited occupation of the person.
- F. **FROM:** The best available information for the city, municipality, and country of the immigrant's residence prior to immigrating. It may be based on the place of birth, tribal area, temporary residence, or home address of kin. As possible, prior residence information has been standardized to official modern spelling. Municipalities have been added as appropriate.
- G. **ARRIVED:** The date on which the person arrived in the U.S.
- H. **AT:** The Port of Entry (both land ports and seaports) by which an immigrant entered the U.S., i.e.,
 - 1) New York
 - 2) Alaska
 - 3) Atlantic Ports
 - 4) Baltimore, MD
 - 5) Canadian Border
 - 6) Mexican Border
 - 7) Boston, MA
 - 8) California
 - 9) Detroit, MI
 - 10) Honolulu, HI
 - 11) New Orleans, LA

12) Philadelphia, PA

13) Galveston, TX

I. ENTRY: Was the person admitted to the USA?

1) OK: Passenger admitted into the USA either directly or after being held for procedural or medical reasons.

2) XX: Held for medical or procedural reasons with ultimate outcome unknown, or held at debarkation port for cholera quarantine.

3) NB: Not on Board or *Ne na bordu*. Includes passengers who changed their minds or became missing.

4) VIA: In transit. These individuals entered the United States for the sole purpose of travel to another US port in order to exit the US, e.g., travel from northwest Canada through the U.S. to the Port of New York for return home to Montenegro.

5) NE: Passenger was deported, i.e., not admitted into the USA and sent on a return voyage to his debarkation point.“

J. DESTINATION: Predominantly the US City, County, and State to which the person was traveling. If travel was to a County location, a City will not be listed. A few Montenegrins entered US ports for onward travel to another country such as Canada or Mexico in North America. This occurred just as some immigrants first entered the US from South America, Mexico or Canada. Some travelers entered the US at one of the numerous ports only as a step in onward travel to locations outside the Continental US. For example, a worker in Alaska or Canada may have entered the US in Washington State and then traveled to the main port of New York for travel home to Europe. This type of travel is indicated as „Via“ when the ultimate destination is unknown.

K. IRID - Individual Record Identification: A unique Identification Number assigned to each individual record and remaining attached to that specific record. This number may be used in locating the entire record in the automated data base or for other purposes.

pit mine - majdan, kop, jama

pitman - rudar

placer mining - vađenje minerala iz korita rijeka

ploughman - orač

polishing - poliranje

political - politički

porter - nosač

powder man - osoba zadužena za eksplozive

pressman - štampar

priest - svještenik

print shop - štamparija

printer - štampar

prisoner - zatvorenik

private - redov, vojnik bez čina, privatni

private family - porodica, domaćinstvo

proprietor, proprietress - vlasnik, vlasnica

prospector - tražilac zlata

provisions - odredbe, zalihe

pump - pumpa

Q

quarry - kamenolom

quarry man - radnik u kamenolomu

quartz mine - rudnik kvarca

R

rail track worker - radnik na željezničkoj prugi

railroad - željeznica

railroad construction - izgradnja željeznice

railroad gang - željeznička ekipa

railroad grade - željeznički nagib

railroad section - željeznički odjeljak

railroad shop - željeznička radionica

railroad tunnel - željeznički tunel

railroad work - željeznički rad

ranch - ranč

refugee - izbjeglica

reliner - modifikator

reservoir - vještačko jezero, rezervoar

restaurant - restoran, gostionica

retail - maloprodaja

retailer - trgovac

reverend - velečasni

R

rigger - bušilica za naftu
road builder - graditelj puta
rock quarry - kamenolom
roomer - podstanar
rooming house - *pansion*
roustabout - privremeni radnik

S

sacker - radnik koji pakuje robu u vreće
sailing vessel - jedrilica
sailor - mornar
saleslady - prodavačica
salesman - prodavač
saloon - krčma
saloonkeeper - krčmar
sand works - prerada pijeska
saw mill - pilana
sawyer - šegač
school boy - učenik
seaman - pomorac
second cook - drugi kuvar
section gang - ekipa šinskih radnika zapošljenih na održavanju željezničke dionice
section hand - član ekipe za održavanje željezničke dionice
section (railroad) - željeznička dionica
servant - sluga
sewer - odvodni kanal, kanalizacija
sewer construction - izgradnja kanalizacije
sewer digging - kopanje kanalizacije

sheep - ovca
ship's waiter - konobar na brodu
shoemaker - obućar
shop - radnja, radionica, prodavnica
short order cook - kuvar jela koja se brzo spremaju
shoveler - radnik s lopatom
sign painter - farbač znakova
signalman - davalac signala
silver mine - rudnik srebra
sister - sestra
sister-in-law - zaova, svastika
sluicing - ispuštanje vode
smelter - peć za topljenje
smith - kovač
son - sin
steam railroad - parna željeznica
steel mill - čeličana
steel wire manufacture - proizvodnja čelične žice
steel works - čeličana
stevedore - lučki radnik
steward - konobar
stone cutter - kamenorezac
stone mason - zidar koji radi s kamenom
stone quarry - kamenolom
store - prodavnica, radnja
storekeeper - magacioner
street railway - tramvaj
street worker - radnik na ulici
student - student
sugar-house - šećerana
supplier - snabdijevač

swamper - pomoćnik kapetana
riječnog broda

switchman - skretničar

T

tailor - krojač

teamster - kočijaš

tie plant - fabrika željezničkih
pragova

tile - pločica, crijep

timber - deblo, drvna građa

timber faller - drvosječa

timber loader - utovarivač drva

tinsmith - limar

tourist - turista

trackman - radnik koji postavlja
željezničku prugu

trammer - pomoćnik rudara

transient - prolazni putnik, gost

transit - tranzit

transportation - transport

trimmer - rezač

truck boss - nadzornik radnika koji
rade s kolicima u rudnicima

truck man - vozač kamiona

tunnel work - izrada tunela

U

uncle - ujak, stric

unemployed - nezaposlen

upholsterer - tapetar

V

valet - sobar

varied - raznolik

W

waiter - konobar

watchmaker - sajdžija

water works - gradski vodovod

whistle punk - radnik zadužen za
signaliziranje

wife - žena, supruga

wire factory - fabrika žice

wire mill - fabrika žice

wood - drvo

wood camp - logor za drvodjelje

wood cutter - drvosječa

woodsman - šumar

workman - radnik

Y

yardman - dvorištar

yeast merchant - trgovac kvascem

O AUTORKI

Šerin Novotni (Sharyn Novotny) se pensionisala nakon 30 godina rada u oblasti međunarodnog istraživanja i analize podataka. Radila je u institucijama krivičnog pravnog sistema, a takođe je šest godina bila i viši politički analitičar u službi američkog predsjednika. Rođena je na „Divljem zapadu“ u američkoj saveznoj državi Vajoming, a odrasla je u stočarskom kraju u istočnom Oregonu. Živi sa suprugom u Ašvilu u Sjevernoj Karolini, SAD. Neke od najboljih trenutaka u životu provela je sa dedom Džonom Andrićem. Projekat o imigraciji započet je kao rezultat Šerinine trogodišnje bezuspješne

potrage za informacijama koje se tiču porodice njenog đeda u Crnoj Gori. Informacije prosto nijesu više postojale, ne samo o Džonu Andriću, već i o mnogima od hiljada Crnogoraca koji su u to vrijeme emigrirali. Džon Andrić rođen je kao Janko Andrijašević 15. januara 1889. godine u nikšićkom kraju Vilusi, u selu Balosave. Emigrirao je u Sjedinjene Države oko 1907. godine. Džon, koji je nekada sanjao da postane ljekar u Crnoj Gori, proveo je deceniju radeći u rudnicima željeza u SAD-u. Dan nakon proglašenja Prvog svjetskog rata, prijavio se za borbu. Nakon rata vratio se u rudnike na nekoliko godina tokom kojih je studirao i postao građevinski inženjer. Radio je 36 godina na upravljanju elektranom u Vajomingu i na kraju postao i njen glavni nadzornik. Oženio se s Fern Alen, kćerkom pionira koji su vozili diližanse kroz Colorado. Sada počiva u sijenci krševitih planina Absaroka u Vajomingu, koje su vječni podsjetnik na njegov dom u Crnoj Gori.

ABOUT THE AUTHOR

Sharyn Novotny is retired from a 30-year career in international data research and analysis. She worked in the criminal justice/law enforcement community and also served for six years as a Senior Policy Analyst for the U.S. President. She was born in the „Wild West,“ in the U.S. State of Wyoming, and grew up in the cattle ranching country of eastern Oregon. She lives with her husband in Asheville, North Carolina, USA. Some of the best times of her life were spent with her grandfather John Andrich. The immigration project was started as the result of Sharyn's unsuccessful three-year search for information concerning the family of her grandfather in Montenegro. The information simply no longer existed, not only for John Andrich but also for many of the thousands of Montenegrins who emigrated at that time. John Andrich was born Janko Andrijašević on 15 January 1889 in the Vilusi-Balosave area of Nikšić. He emigrated

to the United States in about 1907. John, who had at one time dreamed of being a medical doctor in Montenegro, worked for a decade in the iron mines in the U.S. On the first day WWI was declared, he enlisted to fight. After the war, went back to the mines for several years while he studied and became a civil engineer. He had a 36-year career operating an electrical power plant in Wyoming and eventually was the top supervisor for the plant. He was married to Fern Allen, the daughter of pioneers who were part of the horse-driven stage coach system through Colorado. He loved music and the outdoors. He is laid to rest in the shadow of the rugged Absaroka Mountains of Wyoming, an eternal reminder of his home in Montenegro.
